I. Overview of Fukuoka REIT Corporation

To Our Unitholders

We would like to express our sincere appreciation to all unitholders for your continued support of Fukuoka REIT Corporation (FRC).

We are pleased to report on the performance results and management status of FRC for the thirty-seventh fiscal period (September 1, 2022 to February 28, 2023).

During the fiscal period under review (the 37th fiscal period), the Japanese economy showed a mild pickup trend despite weakness seen in some areas. Although COVID-19 still casts an impact, the economy is expected to keep improving due in part to the effects of various political measures. On the other hand, with monetary tightening and other measures continuing globally, a downturn in overseas economies poses a risk of placing downward pressure on the domestic economy.

Under such circumstances, FRC's portfolio achieved solid performance across all asset types. Among them, Canal City Hakata, a city-center retail property, in particular is on a recovery track as the impact of COVID-19 has faded and the movement of people has resumed driven by tourism demand and other factors.

FRC posted operating revenues of 9,037 million yen, operating income of 3,223 million yen, ordinary income of 2,851 million yen, and profit of 2,849 million yen for the fiscal period under review. The dividend per unit came to 3,580 yen, which represents an increase of 60 yen over the dividend forecast of 3,520 yen disclosed at the time of the announcement of the financial results for the 36th fiscal period.

With regard to external growth, we decided in March 2023 to acquire three properties in an endeavor to achieve an asset size of 250 billion yen while diversifying risks in terms of the portfolio structure. Accordingly, we acquired Kumamoto East Front Building (acquisition price: 1,450 million yen), an office building, on March 28, 2023, and Axion Befu-Ekimae Premium (acquisition price: 1,520 million yen), a residential property, on April 27, 2023, and plan to acquire Hakata FD Business Center (planned acquisition price: 14,100 million yen), an office building, on September 1, 2023. After the acquisition of these new properties, the ratio of retail properties in the portfolio is anticipated to decrease to less than 50%.

Zenji Koike

Executive Director
Fukuoka REIT Corporation
President and CEO
Fukuoka Realty Co., Ltd.

As for internal growth, we have been able to increase rents in association with tenant replacement and contract renewal mainly for office buildings and residential properties. Sales at our retail properties and hotels are generally on a recovery trend due to a pickup in demand from domestic and inbound customers.

In terms of "initiatives on sustainability," one of the key measures of FRC, we have endeavored to "maintain and enhance building performance and environmental performance," which covers the E (environment) area. This has resulted in the ratio of properties certified as green buildings to the entire portfolio standing at 80%. As an external evaluation, we have obtained "4 Stars" and "Green Star" in the GRESB Real Estate Assessment. In the GRESB Public Disclosure, we have obtained the highest "A Level." We will continue our proactive endeavors to reduce CO₂ emissions, coordinate with local communities, and provide sustainability information to our unitholders through the issuance of integrated reports and other measures.

As a REIT specializing in regional properties, FRC continuously strives to maintain and enhance dividend per unit in a stable manner by conducting steady asset management and quickly responding to market changes while receiving support and cooperation from powerful sponsors leading the Kyushu business world. We are resolved to make the utmost efforts to secure stable earnings over the medium to long term and continuously offer stable dividends into the future based on our management philosophy of "Act Local, Think Global."

We greatly appreciate your continued support and cooperation.

Initiatives on Sustainability

● External Certification (Important Initiative)

● Support for the Task Force on Climate-related Financial Disclosures (TCFD) recommendations (September 2022)

The Asset Management Company expressed its support for the "Task Force on Climate-related Financial Disclosures (TCFD)" recommendations established by the Financial Stability Board (FSB) for the purpose of discussing the disclosures of climate-related financial information and the responses by financial institutions. At the same time, it joined the "TCFD Consortium," an organization formed by domestic companies supporting the TCFD recommendations.

● Signing of the Principles for Responsible Investment (PRI) (September 2018)

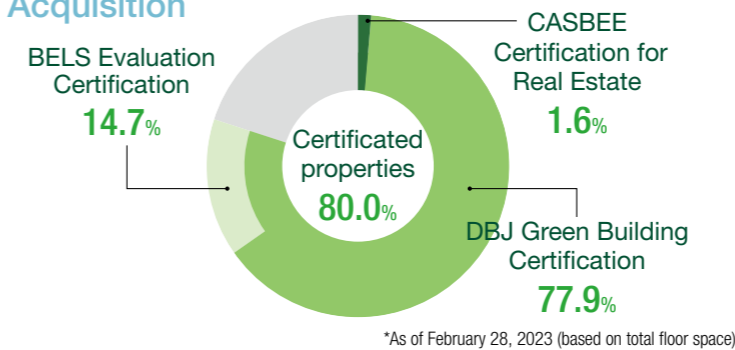

PRI comprises an international network of financial institution investors working to realize six principles for the finance industry, which were established in 2006 under the leadership of then-UN Secretary-General Kofi Annan. PRI encourages the incorporation of environmental, social and governance ("ESG") issues into investment decision-making processes, aiming to thereby help companies enhance their long-term investment performance and better fulfill their fiduciary duty. The Asset Management Company agrees with the basic approach of PRI and became a signatory in September 2018.

Overview of Asset Management

2. Management assessment

(1) Brief history of the investment corporation

Based on the “Act on Investment Trusts and Investment Corporations” (Act No. 198 in 1951 including later revisions, hereinafter the “Investment Trusts Act”), FRC was established on July 2, 2004 as Japan’s first real estate investment trust specializing in regional properties, investing in real estate throughout Kyushu (including Okinawa Prefecture), with a central focus on Fukuoka City, and Yamaguchi Prefecture (hereinafter the “Fukuoka and Kyushu areas”) by using its strength of expertise in regional characteristics, a feature in the real estate industry. FRC started asset management activities on November 9, 2004 after acquisition of four properties comprising retail properties and an office building, and listed on the Tokyo Stock Exchange, Inc. and the Fukuoka Stock Exchange on June 21, 2005 as the nation’s (code number: 8968).

As of the end of the 37th fiscal period (February 28, 2023), FRC manages a total of 33 properties comprising 11 Retail, 11 Office buildings (including land with leasehold interest for an office building) and 11 Others.

(2) Investment environment and portfolio performance

During the fiscal period under review (the 37th fiscal period), the Japanese economy showed a mild pickup trend despite weakness seen in some areas. Although COVID-19 still casts an impact, the economy is expected to keep improving due in part to the effects of various political measures. However, with monetary tightening and other measures continuing globally, a downturn in overseas economies poses a risk of placing downward pressure on the domestic economy. In addition, full attention should be paid to the impacts of rising prices, restrictions on the supply side and changes in the financial and capital markets, etc.

In the Fukuoka and Kyushu area, the core investment target area for FRC, the economy has picked up, with the employment situation improving moderately despite production activities remaining flat. As we foresee, we must be fully wary of rising raw materials and other prices, overseas financial and economic trends, COVID-19 situations and the restrictions on the supply side.

As for land price trends, according to the 2023 Land Market Value Publication, the combined average price for residential and commercial land as well as residential land price and commercial land price increased for the second consecutive year, respectively, on a national basis. Meanwhile, in Fukuoka City, the central area of FRC’s investment targets, land prices rose 10.6% year-on-year for commercial land and 8.0% year-on-year for residential land.

Under such circumstances, FRC’s portfolio achieved solid performance across all asset types. Among them, Canal City Hakata, a city-center retail property, in particular is on a recovery track as the impact of COVID-19 has faded and the movement of people has resumed driven by tourism demand and other factors.

In the 37th fiscal period, FRC conducted disposition of Kurume Higashi Kushiwara SC (15% co-ownership interest) on February 28, 2023.

When analyzing FRC’s portfolio (on an acquisition price basis) as of the end of the 37th fiscal period by investment target area, the investment ratio in the Fukuoka metropolitan area accounted for 77.2%; when analyzing by property type, Retail, Office buildings, and Others accounted for 53.0%, 33.0% and 14.0%, respectively.

Fukuoka Realty Co., Ltd. to which FRC entrusts its asset management (the Asset Manager) has established the Sustainability Policy and Regulations Concerning Sustainability Management to promote sustainability through environmental, social and governance (ESG) considerations. In the 37th fiscal period, FRC has been newly granted certification of the CASBEE for Building Certification for two of its owned properties. In terms of external certifications, FRC has acquired either DBJ Green Building Certification, CASBEE for Building Certification or BELS Evaluation for 80.0% of its portfolio properties on a total floor space basis.

(3) Summary of fundraising

The balance of FRC’s interest-bearing debt outstanding (including investment corporation bonds) at the end of the 37th fiscal period totaled 83,900 million yen. The loan-to-value ratio (ratio of interest-bearing debt (including investment corporation bonds) to total assets) was 41.6% and the ratio of fixed-interest rate debt (ratio of fixed-interest rate debt (including investment corporation bonds) to total interest-bearing debt) stood at 93.4% at the end of the 37th fiscal period. In addition, with regard to the commitment line agreement (credit limit: 7,000 million yen) with The Nishi-Nippon City Bank, Ltd. serving as the agent, FRC extended the commitment period by a year, lengthening the remaining term of commitment to three years. FRC will continue its endeavors to reduce refinancing risks by dispersing debt repayment dates and other measures. At the same time, FRC will investigate mitigating the possible increase in financing costs in accordance with higher interest rates going forward, including review of the ratio of fixed-interest rate debt.

Overview of Asset Management

Moreover, the credit ratings assigned to FRC as of the end of the 37th fiscal period are as follows:

Credit Rating Agency	Rating Type	Rating	Rating Outlook
Rating and Investment Information, Inc. (R&I)	Issuer Rating	A+	Stable
Japan Credit Rating Agency, Ltd. (JCR)	Long-term Issuer Rating	AA-	Stable

(4) Summary of performance and dividend

As a result of these management efforts, operating revenues totaled 9,037 million yen and operating income after excluding operating expenses such as expenses related to leasing business and asset management fees totaled 3,223 million yen. Ordinary income was 2,851 million yen and profit amounted to 2,849 million yen. Management decided to make a dividend of 3,580 yen per unit to meet the requirements of special tax measures for an investment corporation (as stipulated in Article 67-15 of the Act on Special Measures Concerning Taxation of Japan [Act No. 26 in 1957 including later revisions]). Under this act, an investment corporation is allowed to deduct the maximum amount of dividends paid to investors from its taxable income.

3. Change in the number of investment units issued

Changes in unitholders' capital from the incorporation of FRC to the end of the 37th fiscal period are as follows:

Lowest	126,300 yen	163,100 yen	153,400 yen	153,200 yen	160,400 yen

4. Results of dividend, etc.

With respect to the dividend for the 37th fiscal period, FRC determined to distribute the whole unappropriated surplus (except for the fraction amount, which is the dividend per unit of less than 1 yen) to be eligible for special tax measures for an investment corporation (as stipulated in Article 67-15-1 of the Special Taxation Measures Act) that allow FRC to deduct the maximum amount of earnings dividend from its taxable income. Accordingly, dividend per unit for the fiscal period was 3,580 yen.

5. Future portfolio management policy and vital issues

FRC will further reinforce management and leasing capabilities by cooperating with property management companies including sponsor companies, and secure and maintain the stable operation of the properties by making the most use of their advantages.

FRC will make investments based on the basic policy stipulated in its Articles of Incorporation and its basic philosophy: focusing on "specialized areas in which FRC can demonstrate its competitive edge" that are in "high growth potential markets." By geographic location, of Fukuoka and Kyushu areas, FRC will invest 60% to 90% of its assets in the Fukuoka metropolitan area since the Fukuoka metropolitan area is expected to have a high population growth rate in the future. In addition to the Fukuoka metropolitan area, management has decided to actively acquire properties in major cities if there are regions or properties where FRC can generate investment merits from community-oriented viewpoints. FRC will acquire high-quality properties with adequate use of its advantages, such as information gathering ability in the areas, good knowledge of regional properties and close relations with the local business community including its sponsors and governments, so that investors can continue to invest in FRC with assurance.

Meanwhile, FRC will build stronger relationships with financial institutions to realize stable fundraising and try to maintain a solid financial structure.

Acquisition of Asset

On March 28, 2023, FRC acquired the following real estate.

Type of asset acquired	Property name	Use	Location	Seller	Acquisition price	Acquisition date
Real estate	Kumamoto East Front Building	Office	1-5-15, Shinyashiki, Chuo Ward, Kumamoto City and 2 other lots	Not disclosed (Note 1)	1,450 million yen (Note 2)	March 28, 2023

(Note 1) The seller is a domestic operating company but is not disclosed as no consent to disclosure has been obtained from the seller. Note that the seller does not fall under the category of related parties of FRC or Fukuoka Realty Co., Ltd., the asset management company of FRC.

(Note 2) The acquisition price does not include acquisition expenses and the amount equivalent to the settlement of property taxes and city planning taxes, etc.

Overview of Asset Management

On March 30, 2023, FRC concluded a sales agreement regarding acquisition of real estate trust beneficiary interest.

Type of asset acquired	Property name	Use	Location	Seller	Acquisition price (planned)	Acquisition date (planned)
Real estate trust beneficiary interest	Hakata FD Business Center	Office	10 Tsunabamachi, Hakata Ward, Fukuoka City and 13 other lots	Fukuoka Jisho Co., Ltd.	14,100 million yen (Note 2)	September 1, 2023

(Note 1) Although the asset to be acquired is actual real estate as of the contract date, the seller plans to place 77% co-ownership interest in the property's building it owns and the land it owns (part of the building's leasehold land; so-called "partial ownership") in a trust for the trustee by the acquisition date (planned), and FRC plans to acquire the beneficiary interest in said trust.

(Note 2) The acquisition price (planned) does not include acquisition expenses and the amount equivalent to the settlement of property taxes and city planning taxes, etc.

(Note 3) The beneficiary interest disposition agreement for the acquisition of the property (the "Acquisition Agreement") falls under the category of forward commitment, etc. (a postdated transaction agreement where the settlement and delivery are to take place one month or more after the conclusion of the agreement as well as other similar agreements). FRC shall be able to cancel the Acquisition Agreement without penalty if it becomes impossible to achieve the purpose of the agreement due to a cause not attributable to FRC. In the Transaction Agreement FRC will not pay any deposit.

On April 27, 2023, FRC acquired the following real estate trust beneficiary interest.

Type of asset acquired	Property name	Use	Location	Seller	Acquisition price	Acquisition date
Real estate trust beneficiary interest	Axion Befu-Ekima Premium	Residence	3-296-1, Befu, Jonan Ward, Fukuoka City and 2 other lots	Shibata Industry Co., Ltd.	1,525 million yen (Note)	April 27, 2023

(Note) The acquisition price does not include acquisition expenses and the amount equivalent to the settlement of property taxes and city planning taxes, etc.

(Note 2) FRC disposed Kurume Higashi Kushiwara SC (15% co-ownership interest) on February 28, 2023. The same shall apply hereafter.

(Note 3) The acquisition of the property falls under the category of forward commitment, etc. as provided by the "Comprehensive Guidelines for Supervision of Financial Instruments Business Operators, etc." set forth by the Financial Services Agency. As a reservation deposit, FRC paid the amount equivalent to 5% (approximately 4 mm yen) of the purchase price corresponding to its acquisition ratio at the time of applying to the Fukuoka City Government for the purchase. If FRC withdraws from the purchase of the property, the deposit shall be used as cancellation penalty.

(Note 4) The property is planned for delivery on March 31, 2029 (which may be changed depending on the situation of its foundation enhancement work and other factors).

(Note 5) The location and total leasable floor space are to be finalized after measurement surveys to be conducted later and registration of subdivided lots.

(Note 6) Property to be acquired indicates the property for which contract has been concluded as of the end of the 37th fiscal period.

Status of FRC's Assets under Management

(Note 1) "Number of tenants" is based on the total number of sections stipulated in the tenancy agreements for retail and office buildings among relevant properties. For the number of tenants in pass-through master leasing properties, the number of sections stipulated in the tenancy agreements with end tenants is shown in square brackets. The Taihaku Street Business Center is an office building with a residential tower. Its number of tenants comprises 13 for the office building and 57 for the residence in the 37th fiscal period (13 for the office building and 58 for the residence in the 36th fiscal period).

(Note 2) The total of all the tenants in other than pass-through master leasing properties and the total number of sections stipulated in the tenancy agreements with end tenants for pass-through master leasing properties is shown in square brackets in the subtotal and total columns for "Number of tenants."

(Note 3) "Occupancy rate" refers to the percentage of leased floor space to leasable floor space and the figures are rounded off to one decimal place.

(Note 4) "Total leasing business revenues" indicates the total of real estate leasing revenues and other revenues from real estate rent in the current fiscal period.

(Note 5) "Percentage of total leasing business revenues" is rounded off to one decimal place, and the total of individual percentages in the above table may not equal 100%.

(Note 6) The number of tenants indicates the number of the lessee of the land with leasehold interest.

(Note 7) The figures are not disclosed as no consent to disclosure has been obtained from the tenants.

4. Details of renewable energy generation facilities in the portfolio

7. List of specific transaction and forward exchange transaction contract amount and status of fair value

The following table provides the contract amount of FRC's specific transactions and the status of its fair value as of February 28, 2023.

Category	Type	Contract amount, etc. (mm of yen)		Fair value (mm of yen) (Note 2)
		(Note 1)	Of which, exceeding 1 year	
Off-market transaction	Interest rate swap transaction (Receivable floating; Payable fixed)	21,100	16,700	490
Total		21,100	16,700	490

(Note 1) The contract amount, etc. of the interest rate swap transaction is based on the notional principal amount.

(Note 2) The fair value is calculated by the counterparty of the transaction contract based on the actual interest rate on the market and other factors.

8. Status of other assets

All real estate and real estate trust beneficiary interests owned by FRC have been entered under "3. Details of real estate properties in the portfolio" on page 16. There is no incorporation of other specified assets as of the end of the 37th fiscal period.

9. Status of owned assets by country and region

As of the end of the 37th fiscal period, no overseas real estate properties in countries or regions other than Japan are incorporated into FRC's portfolio.

Capital Expenditures for Owned Real Estate

(Note 1) The average interest rate is a weighted-average figure during the fiscal period and is rounded to the third decimal place. Furthermore, the average interest rate of debt for which FRC conducted interest rate swap transactions in order to hedge against interest rate fluctuation risks is the weighted-average figure during the fiscal period taking into consideration the effect of interest rate swaps.

(Note 2) Shinsei Bank, Ltd. changed its trade name to SBI Shinsei Bank, Limited as of January 4, 2023.

(Note 3) The borrowing is a Sustainability-Linked Loan in which it has been set as a Sustainability Performance Target (SPT) to reduce CO₂ emissions (in terms of intensity) by 35% compared with fiscal 2019 by February 28, 2031, and the achievement of the target is linked to the loan conditions. When the SPT is achieved, the contract will offer a preferential treatment for the interest rate determined at the time of borrowing, for the period from August 2031 to the repayment date.

III. Independent Auditor's Report

Independent Auditor's Report

To the Board of Directors of Fukuoka REIT Corporation

Opinion

We have audited the financial statements of Fukuoka REIT Corporation (the Company), which comprise the balance sheet as of February 28, 2023, and the statement of income, statement of changes in net assets, statement of cash distributions and cash flow statement for the six months period then ended, notes to financial statements and supplementary schedules.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of February 28, 2023, and its financial performance and its cash flows for the six months period then ended in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The other information comprises the information included in the semiannual report, but does not include the financial statements and our auditor's report thereon. Management is responsible for the other information. In addition, those charged with governance are responsible for overseeing the Company's reporting process of the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern and disclosing, as applicable, matters related to going concern.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the purpose of the financial statement audit is not to express an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate whether the presentation and disclosures of the financial statements are in accordance with accounting principles generally accepted in Japan, the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide management with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

IX. Notes to Financial Statements

(Basis of presentation)

The financial statements of FRC, which is incorporated in Japan, have been prepared in accordance with the provisions set forth in the Financial Instruments and Exchange Act of Japan and related regulations and accounting principles generally accepted in Japan, which are different in certain respects to the application and disclosure requirements of International Financial Reporting Standards (“IFRS Standards”).

The accompanying financial statements have been translated into English, for the convenience of readers outside Japan, from the audited financial statements that were prepared for Japanese domestic purposes from the accounts and records maintained by FRC and were filed with the Kanto Local Finance Bureau of the Ministry of Finance as required by the said Act.

(Significant accounting policies)

1. Depreciation method for non-current assets	<p>(1) Property, plant and equipment Depreciation is calculated using the straight-line method. The useful lives of major categories of property, plant and equipment including trust assets are as follows:</p> <table style="margin-left: 20px;"> <tr><td>Buildings:</td><td>10 – 65 years</td></tr> <tr><td>Structures:</td><td>15 – 60 years</td></tr> <tr><td>Machinery and equipment:</td><td>15 – 30 years</td></tr> <tr><td>Vehicles and transport equipment:</td><td>7 years</td></tr> <tr><td>Tools and fixtures:</td><td>5 – 20 years</td></tr> </table> <p>(2) Intangible assets Intangible assets are amortized utilizing the straight-line method.</p> <p>(3) Long-term prepaid expenses Long-term prepaid expenses are amortized utilizing the straight-line method.</p>	Buildings:	10 – 65 years	Structures:	15 – 60 years	Machinery and equipment:	15 – 30 years	Vehicles and transport equipment:	7 years	Tools and fixtures:	5 – 20 years
Buildings:	10 – 65 years										
Structures:	15 – 60 years										
Machinery and equipment:	15 – 30 years										
Vehicles and transport equipment:	7 years										
Tools and fixtures:	5 – 20 years										
2. Accounting for deferred assets	Investment corporation bond issuance expenses Investment corporation bond issuance expenses are amortized utilizing the straight-line method over the period through redemption.										
3. Standards for recognition of revenues and expenses	<p>(1) Standards for revenue recognition The details of main performance obligations concerning revenues generated from contracts between FRC and its customers and the ordinary time to fulfil said performance obligations (ordinary time to recognize revenues) are as follows:</p> <p>① Sales of real estate property FRC recognizes revenues from sales of real estate property when the purchaser, who is a customer, obtains control of the relevant real estate property as a result of FRC fulfilling its delivery obligations stipulated in the transaction agreement of the real estate property.</p> <p>② Utilities income FRC recognizes utilities income in accordance with the supply of electricity and water, etc. to the lessee, who is a customer, based on the lease agreement of real estate, etc. and details of agreements incidental to it. Of the utilities income, in the case that FRC deems itself to be an agent, the net amount obtained by deducting the amount it pays to other parties from the amount it receives as charges for electricity and gas, etc. supplied by the said other parties is recognized as revenue.</p> <p>(2) Accounting treatment of property taxes, etc. In connection with property taxes, city planning taxes and depreciated asset taxes, FRC uses the method of charging the corresponding amounts of assessed taxes to the current fiscal period as expenses related to leasing business. The amount equivalent to property taxes, etc. for the initial fiscal year paid to the seller as settlement money upon acquisition of real estate or trust beneficiary interests in real estate as entrusted property is not expensed but capitalized as part of the acquisition cost of the relevant property. The amount equivalent to property taxes, etc. capitalized in the acquisition cost of real estate, etc. was 23,928 thousand yen for the 36th fiscal period. No amount equivalent to property taxes, etc. was capitalized in the acquisition cost of real estate, etc. for the 37th fiscal period.</p>										
4. Method of hedge accounting	<p>(1) Method of hedge accounting Deferred hedge accounting is applied for interest rate swap transactions. However, special accounting is applied for interest rate swap transactions that satisfy the requirements for special accounting.</p> <p>(2) Hedging instruments and hedged items Hedging instrument: interest rate swap transactions Hedged items: interest rates of borrowings</p> <p>(3) Hedging policy FRC conducts derivative transactions to hedge interest rate fluctuation risks for floating-rate borrowings based on FRC's Articles of Incorporation.</p> <p>(4) Method for assessing the effectiveness of hedging Assessment of the effectiveness of hedging is omitted as requirements are satisfied for special accounting for interest rate swap transactions.</p>										

5. Scope of funds (cash and cash equivalents) in cash flow statement	The funds (cash and cash equivalents) in the cash flow statement consist of cash on hand and cash in trust; deposits that can be withdrawn at any time and deposits in trust; and short-term investments with a maturity of 3 months or less from the date of acquisition, which are readily convertible to cash and bear only an insignificant risk of value fluctuation.
6. Other significant items fundamental to preparing the financial statements	Accounting methods for trust beneficiary interests in real estate as entrusted property Regarding trust beneficiary interests in owned real estate as entrusted property, all asset and liability accounts of the entrusted properties as well as all revenue and expense accounts generated by the entrusted properties are recorded in relevant accounts on the balance sheet and statement of income. Furthermore, the following material accounts are separately stated on the balance sheet for entrusted properties recorded in relevant accounts. ① Cash and deposits in trust ② Buildings in trust, structures in trust, machinery and equipment in trust, vehicles and transport equipment in trust, tools and fixtures in trust, lands in trust and construction in progress in trust ③ Leasehold right in trust ④ Other intangible assets in trust ⑤ Lease and guarantee deposits in trust ⑥ Tenant leasehold and security deposits received in trust

(Notes to financial instruments)**1. Matters concerning status of financial instruments**

(1) Policy on handling financial instruments

In order to secure stable earnings and steady growth of assets under management, FRC procures funds primarily through borrowings from financial institutions, issuance of investment corporation bonds or issuance of investment units for property acquisitions, repair and maintenance work, repayment of interest-bearing debt and other purposes.

In procuring interest-bearing debt, FRC borrows funds primarily in long-term, fixed interest debt based on the policy of establishing a solid financial structure, and conducts conservative operations intended to secure financial stability and liquidity by dispersing debt payment dates and utilizing committed lines of credit and through other measures.

With regard to surplus funds, FRC manages them as various deposits and savings, etc. to support efficient management while considering security.

FRC conducts derivative transactions only for the purpose of hedging the risk of future interest rate fluctuation, and not for the purpose of speculation.

(2) Description of financial instruments and associated risks, and risk management structure

Debt and investment corporation bonds are funds procured primarily for acquiring real estate trust beneficiary interests and refinancing of borrowings. Borrowings and investment corporation bonds are exposed to liquidity risks upon debt payment dates, but FRC works to mitigate these risks by such measures as appropriately controlling the ratio of interest-bearing debt to total assets and executing commitment line agreements with local financial institutions that are lenders to secure on-hand liquidity.

In addition, borrowings with floating interest rates are exposed to interest rate fluctuation risks. However, FRC works to reduce the risks by such measures as adjusting the ratio of the balance of borrowings with floating interest rates to total borrowings in accordance with the financial environment and other factors. FRC conducts derivative transactions (specifically interest rate swap transactions) for part of its borrowings with floating interest rates in order to hedge the risk of future fluctuations in the rates of interest payable. Furthermore, assessment of the effectiveness of these interest rate swaps is omitted as it has been determined that they have met the requirements for special accounting. FRC executes and manages its derivative transactions in accordance with its financial derivative transaction management policies and, it does so only with financial institutions it determines to have a certain level of creditworthiness, by reference to their credit ratings, to reduce counterparty risks.

FRC manages surplus funds in large time deposits. Such deposits are subject to the risks of failure of the financial institutions holding the deposits as well as other credit risks. FRC mitigates the risks by limiting its deposits to financial institutions with a certain level of creditworthiness, by reference to their credit ratings, as well as by setting short durations for these deposits.

Tenant leasehold and security deposits and tenant leasehold and security deposits received in trust are deposits from tenants and are exposed to liquidity risks if tenants move out before the contracts expire. FRC mitigates this risk by such measures as securing on-hand liquidity.

(3) Supplementary explanation on matters concerning fair value of financial instruments

Certain assumptions are made in calculating the fair value of financial instruments, and there may be cases where the values will vary when different assumptions are used.

As for the contract value and other conditions of derivative transactions indicated in "2. Matters concerning fair value of financial instruments," the contract value is not an indicator of the market risks related to such transactions.

2. Matters concerning fair value of financial instruments

The following table includes the book values for financial instruments as recorded on the balance sheet, the corresponding fair values and the difference between these amounts as of August 31, 2022. Furthermore, notes to Cash and deposits and Cash and deposits in trust are omitted as these are settled with cash and within a short period of time, and thus the fair value is approximately the same as the book value.

(Note 1) Calculation method for fair value of financial instruments

(1) Current maturities of investment corporation bonds, (2) Current maturities of long-term debt, (3) investment corporation bonds and (4) Long-term debt

The fair value of long-term debt with fixed interest rates (including debt with practical fixed interest rates through interest rate swaps) and investment corporation bonds (the "debt, etc.") is calculated by discounting the total amount of principal and interest by the rate assumed as being applicable in the event of a new drawdown of similar debt, etc.

The fair value of long-term debt with floating interest rates is based on the book value, as the contract terms require the interest rates to be revised in a certain period of time (within six months) and thus is considered to be nearly equal to the book value.

(5) Tenant leasehold and security deposits and (6) Tenant leasehold and security deposits received in trust

The fair value of tenant leasehold and security deposits and tenant leasehold and security deposits received in trust is calculated by using the present value, which is obtained by discounting the future cash flows of such deposits by a rate that takes into account the term remaining until the reimbursement deadline and credit risks.

(Note 1) The average interest rate is a weighted-average figure during the fiscal period and is rounded to the third decimal place. Furthermore, the average interest rate of debt for which FRC conducted interest rate swap transactions is the weighted-average figure during the fiscal period taking into consideration the effect of interest rate swaps.

(Note 2) Shinsei Bank, Ltd. changed its trade name to SBI Shinsei Bank, Limited as of January 4, 2023.

(Note 3) The borrowing is a Sustainability-Linked Loan in which it has been set as a Sustainability Performance Target (SPT) to reduce CO₂ emissions (in terms of intensity) by 35% compared with fiscal 2019 by February 28, 2031, and the achievement of the target is linked to the loan conditions. When the SPT is achieved, the contract will offer a preferential treatment for the interest rate determined at the time of borrowing, for the period from August 2031 to the repayment date.

(Note 4) Amount of repayment of long-term debt scheduled to be due within 5 years after period end.
